

ECONO-CLING SIGN KIT

INSTRUCTIONS

- Window and sign **must** be clean and free of dust and dirt. The use of an ammonia based glass cleaner (Windex, etc.) is suggested. **Do not use soap and water.** A soap film will prevent proper adhesion of the signs.
- Peel letter off white backing sheet
- Place the self-aligning letters and numbers on the window. Using the plastic applicator, squeegee the entire surface of the letters to the glass so that the entire letter, **especially** the edges and corners, is pressed flat against the glass surface.
- To set letters in a straight line, set the first letter in a horizontal position. The following letters will then automatically fall in line as they butt up against each other. For variety and interest, vary the signs. Place letters on a diagonal, in an arc, or in other interesting arrangements.
- Lift letters off to remove. Use over and over again as needed.
- When not in use, place letters on the backing sheet and store in Ziplock bag.
- Before using again, be sure that letters are clean and free of dust and dirt.

HELPFUL HINTS

- Keep your message simple and avoid excessive copy for easy reading.
- Change sign message and/or position frequently to increase attention.
- Increase visibility by placing words in arcs and diagonals.

5" Lettering Kit Contains

A - 9	E - 12	I - 6	M - 3	Q - 3	U - 3	Y - 3	1 - 4	5 - 4	9 - 4	& - 2
